

THE STAR RATINGS MODELLER SUPPORTS INSURANCE PRODUCT REVIEW & DEVELOPMENT PROCESSES

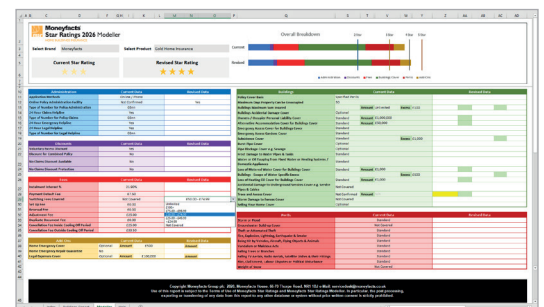

The Moneyfacts Star Ratings Modeller - the essential product to help your marketing and product development.

To support product development, the Moneyfacts Star Ratings Modeller allows you to analyse and improve your own products whilst seeing what impact these changes may have against your competitors and your future Moneyfacts Annual Star Rating.

Each Star Ratings Modeller provides:

- Full market data for quick product comparison, supporting product review processes.
- Modelling page for product development to see how any changes you make to your product will impact your Star Rating.
- Easy to use Excel based output, great for sharing with other teams internally.

For eight products, the Moneyfacts Star Ratings licence package includes the **complimentary Moneyfacts Modeller**:
